

Cybersecurity Compliance Consultant m/f/d

Type of employment: Fulltime

Location: Vienna

Are you familiar with cyber security, security and data protection in the cloud? Are you looking for an unconventional combination of Cybersecurity and Compliance? Do you prefer smaller companies with a pleasant and relaxed atmosphere? Expand our Security team and become an important part of ORBIT!

We are happy to welcome someone who:

- Has knowledge in Cybersecurity, Cloud Security and has implemented projects in the field of data security, ideally in the cloud
- At the same time, understands or wants to understand laws, regulations and standards such as ZoKB, GDPR, EBA, ISO...
- Is interested in cloud technology and IT progress
- Is communicative, analytical, seasoned by laws & regulations and ambitions

What we are looking for:

- Cybersecurity and the Cloud are no stranger to you
- You are technically oriented
- You are interested in security analyses, defining and optimizing cyber security processes
- You have a basic overview of laws, regulations, standards (e.g. ZoKB, GDPR, ISO 27K...)
- You have analytical thinking and critical thinking
- You are eager to learn and improve the entrusted area - Cloud Cybersecurity / Compliance
- You speak English well

We will also certainly welcome if:

- You are willing to travel within the Czech Republic and abroad
- You have good communication and presentation skills
- You have the ability to think in context and look for new solutions
- Your strengths include persistence, reliability, attention to detail and responsibility
- You are open, systematic
- You are looking for ways HOW, not reasons why NOT
- You are a flexible personality who can find a way to a goal and stick to it even in a complex environment

In return we offer:

- The possibility to create together with us a world where IT gives people the freedom to work anytime and from anywhere
- Flexible workplace and way of working
- A friendly team and a great team that will take care of you
- Cooperation with foreign partners on important projects in the Czech Republic and abroad
- Work with modern technologies, contact with the world's leading IT producers
- Constant improvement of qualifications and education in IT, recognized professional certifications
- Possibility of a flexible contract
- For employees, we provide 5 weeks of vacation, meal vouchers, multisport card
- Mobile phone and laptop as a matter of course with the possibility of working from anywhere
